

## Enable Conversations That Drive Results

We help brands and advertisers monitor and manage online conversations with ease. BrandBastion's AI instantly analyzes and classifies thousands of comments to pinpoint what people are saying and to help brands take action.

## Our Solutions

**BrandBastion Safety**  
Protect Your Brand on Social

Harmful and sensitive content hidden on your behalf and alerts are issued 24/7 in real-time when urgent attention is required.

**BrandBastion Care**  
Enable Conversations at Scale

Responses issued on your behalf to positive engagement, customer questions, feedback and much more.

**BrandBastion Intelligence**  
Turn Data into Actionable Insights

Report and provide actionable insights into how users are engaging with your brand across social channels.

## What Makes Us Different

**AI + Human Proprietary Technology** Our AI uses Natural Language Processing Technology to identify comments in need of moderation or a response at lightning speed. Working alongside the tech, a team of highly trained human analysts works 24/7 to ensure accuracy.

**Fully Managed Service** We take all actions on a brand's behalf around the clock including nights, holidays and weekends.

**24/7 Full Coverage Paid and Organic** BrandBastion crawls unlimited comment volumes or accounts, covering paid and organic posts, including Facebook Dynamic Ads.

**+34% Conversions** after implementing BrandBastion Moderation + Alerts
