

Enable Conversations That Drive Results

We help brands and advertisers monitor and manage online conversations with ease. BrandBastion's AI instantly analyzes and classifies thousands of comments to pinpoint what people are saying and to help brands take action.

Our Solutions

- BrandBastion Safety**

We protect your brand reputation and defend your social media community from harmful content 24/7.
- BrandBastion Care**

We reply to your brand's comments on your behalf 24/7, helping you increase response and engagement rates.
- BrandBastion Intelligence**

We report and provide actionable insights into how users are engaging with your brand across social channels.
